Central Public Procurement Portal

About

CPPP

In pursuance of the recommendations of the Committee on Public Procurement headed by Shri Vinod Dhall and the decisions thereon of the Group of Ministers constituted to consider measures to tackle corruption and ensure transparency, the Department of Expenditure has taken action for setting up a Central Public Procurement Portal (CPP Portal). National Informatics Centre (NIC) has been given the responsibility for setting up this portal.

The primary objective of the portal is to provide a single point access to the information on procurements made across various Ministries and the line Departments. The CPP Portal is accessible at the URL <http://eprocure.gov.in> and it has e-publishing and e-procurement modules. It is mandatory for all Ministries/ Departments of the Central Government, Central Public Sector Enterprises (CPSEs) and Autonomous and Statutory Bodies to publish all their tender enquiries.

Background

National Informatics Centre (NIC), Ministry of Electronics & Information Technology, developed “Government eProcurement system of NIC (GePNIC) “in close association with **Public Procurement Division, Ministry of Finance.**

It caters to the electronic procurement/ tendering requirements of the Government departments and other organizations.

The system is made available as a platform and can easily be adopted for all kinds of procurement such as Goods, Services & Works. It aims at transparency and non-discrimination amongst bidders, by allowing free access to tender documents, clarifications, secure on line bid submission and access to bid opening event to all, from any place on 24X7 basis, using the system through Internet, in a faster, and secure environment adopting industry standard open technologies.

Variety of procurement requirements of varied procuring entities has been built in a robust configurable , workflow based manner.

This can be configured for use by an organization at it’s apex level, and at multiple subordinate levels, at which tenders could independently be floated.

Strong in-built security features including two-factor Authentication with Digital Signature Certificates (DSCs) for foreign nationals also as per IT Act, Usage of SSL, Role-based User Access and Bid-encryption at Client end, using PKI technologies. Security audited by as per EPS guidelines by STQC.

User base across the country by 27 State / Union Territories of India and by around 350 Central Govt. entities. Processed 2.5 Million electronic tenders worth over Rs. 7.5 lakh Crores have been processed successfully till 31st March 2017.

GePNIC

Purpose & Audience

This annual report on Central Public Procurement Portal is prepared based on the usage or implementation of Government eProcurement System of NIC (GePNIC) by various procuring entities during the financial year 2016-2017. The target audience would be all users of CPP Portal and purpose of the report is to showcase achievements of electronic procurement through CPP Portal across the country by various Central procuring entities, Autonomous Body and Public Sector Unit(s). The Annual reports provide information on statistical reports and history and summarize the State's statistics in the past year. Annual report highlights the achievement of user who have been very supportive and shown tremendous performance as procuring entities.

This report will indicate the importance of electronic procurement system and in this emerging digital era where Central Public Procurement Portal catering a platform to bring transparency and reliability in procurement process. This document aims at analysing the data based on the usage of system by various entities and making available the highlights of the data, dissemination of the features available including the security of the CPP Portal, where the bid will not get tampered by any other means, bidding documents will be available with the respective stakeholders, RTI / Vigilance will get minimized and the bid documents will be preserved safe till the bid opening. The portal also promotes competition with free online enrollment for bidders. The consolidated details provided in the document is meant for learning the best practices from major implementing agencies.

Lessons learned & major challenges

Mission:

Develop an end-to-end technological model to ensure not only transparent and cost effective procurement processes, but also the construction of the knowledge base that is needed to support strategic decisions towards public expenditure reduction and optimization

It is believed that implementation of this will allow it to pursue its mission along three key strategic dimensions:

Key issue:

Need of integration of information across various Procurement Giants .

Need of Standardization for monitoring performance Indicators.

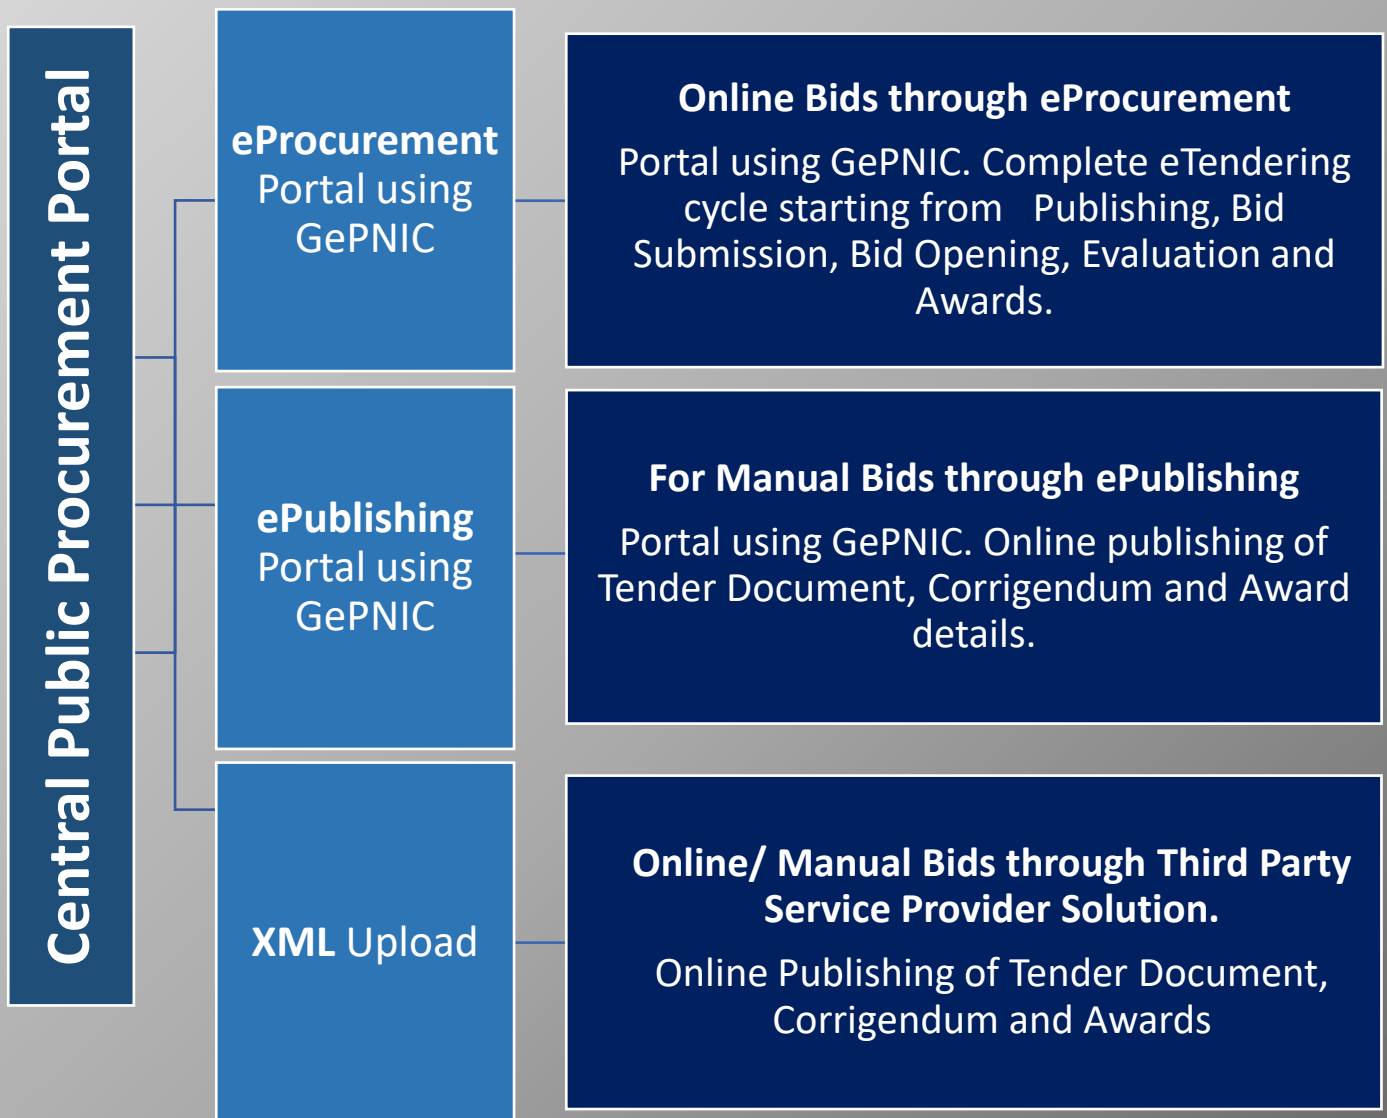

Financial	Political	Social
<ul style="list-style-type: none">• To assess the quantum of saving after moving to electronic platform	<ul style="list-style-type: none">• Through completely transparent, rigorous and efficient procurement processes	<ul style="list-style-type: none">• Providing a better service for all stakeholders, achieving their buy-in and contribution, alongside a fundamental cultural change in the Public Administration

Central Public Procurement Portal (assimilation of all tenders across the country)

One stop shop for all activities for all GOI Policies/ Standards/ Guidelines / Orders, etc. on public procurement.

Mandatory for all Ministries/ Department of the Central Government, their attached and subordinate offices, Central Public Sector Enterprises (CPSEs) and autonomous/ statutory bodies to make their tenders enquires available in Central public procurement Portal. Various methodology of same is as follows :

Journey so Far

Central Public Procurement Portal was made operational on 1st Jan 2012 by providing a two phased model for seamlessly bringing in all Central Government entities into electronic procurement ambit. ePublishing and eProcurement

With constant monitoring and by issuing various guidelines Public Procurement Division, Department of Expenditure has successfully on boarded majority of Central government procuring entities on to the portal.

Multiple channels of Capacity Building, Easy availability of Digital Signature Certificates, Process re engineering as per need, inculcating the adoption of Best Practises across organisation, availability of uniform platform for easy of use and quick adoption in case of interdepartmental transfers etc were the steps taken which resulted in increase growth over the last few years across the country.

Last 3 Year's	Electronic Tenders	Value of Tenders (In Cr.)	% Increase over previous year	Average tenders in a Month
2016-17	6,81,971	8,90,968.84	32.72%	56,831
2015-16	5,13,842	6,92,177.78	66.37%	42,820
2014-15	3,08,854	4,77,517.24	39.98%	25,737

Benefits to Buyers

- Uniform and standardized tendering process across the department
- Reduction in Procurement cycle time
- Reduction of Tender publishing costs
- Safe, Secured Platform
- Procurement Processes Efficiency
- Automated milestone based alerts
- Multiple bid-formats
- Wide publicity
- Discourages Cartel formation
- Real Time 24 x 7 availability of information
- Improved Accountability
- Automated milestone based mail / SMS alerts and status updates
- Centralized portal where in procurement related information of all Central Govt. entities are available
- Visibility of Contract awarded with L1 rates
- Extensive search on various Product categories and other parameters.

Benefits to Bidders

- Zero Cost to Bidders, No Per-Bid Charges or registration charges.
- Eliminates the need to submit bulky and multiple bid copies in paper form.
- Anytime & Anywhere Bidding, No physical threat
- Fair, Free and Fearless participation
- Provision to modify and re-submit the bid documents till bid closing time.
- Increased visibility: all tender information available at one place on line.
- Cuts down unnecessary physical trips to office of tender inviting authority.
- Transparent system inspiring confidence among bidder community.

Central Public Procurement Portal

- Comprehensive Information Related to Public Procurement pertaining to Central Procuring Entities.
- Nodal Agency - Department of Expenditure.
- 350 (+) Central Procuring Entities
- URL :- <https://eprocure.gov.in>

Growth over Previous year is represented in %

Stakeholder

In eProcurement System/ Organizational Set-up

Stakeholder identification

Stakeholders for e-procurement can include any person or functional area that “touches” the systems, tools or information being held. This may include people at all levels of the organisation and external contacts such as suppliers and outsourcing partners. An agency can have multiple procurement processes. It may be necessary to look across the entire agency for the appropriate stakeholders and to understand the different business rules as they apply to e-procurement.

The following list provides a general view of functional procurement areas and their potential e-procurement-related activities

Functional Procurement Areas and Their Activities	
Accounts Payable	Maintain catalogues; Process POs; Process invoices
Audit	Ensure laws, rules, procedures & guidelines are being followed
Buyers	Initiate requisitions; Access catalogues; Approve POs; Receipt purchases; Process invoices; Approve payments
Executive	Sponsor Champions program; Develops policy; Secures funds and resources; Supports policy and procedural changes across functional areas
Finance	Manage, analyse and access data; Develop & implement policy and procurement processes
IT	Implement, integrate & manage online systems and tools; Develop business & IT strategy; Develop & implement policy
Legal	Write & negotiate contracts
Procurement	Manage, analyse and access data; Source suppliers; Manage categories & contracts; Manage suppliers; Develop & implement policy; Receipt purchases; Approve payments
Security	Develop & maintain security controls and requirements; Develop & implement policy
Suppliers	Respond to tenders; Participate in contract management; Maintain catalogues; Process POs; Submit invoices; Receive payment

Managing stakeholders

When managing suppliers, it is important to demonstrate the benefits of e-procurement as their engagement is critical to success. Communicate what e-procurement can and cannot do followed-up with regular progress reporting and quantifiable metrics. These messages, form part of a strong Communications Plan and will help to keep key stakeholders informed and manage their expectations.

Getting stakeholders to participate can be difficult, especially if they do not understand the value of the implementation to themselves and their functional area. A successful model includes a cross-functional team with members from each functional area (see list detailed in Stakeholder Identification). The team can support testing, development and training activities along with acting as product champions.

Here are some examples of how well-managed stakeholders at different levels in the organisation can positively impact an e-procurement implementation:

- Key stakeholders can spear head the change management activities by reviewing and updating local policy and procedures that will be impacted by the implementation
- The Executive Sponsor can ensure new policies and procedures are put into place to drive uptake of e-procurement
- End users prefer a fast and easy procurement process. Their roles and responsibilities often change as a result of e-procurement. Changes should be identified and communicated in a way that allows them to absorb the information and incorporate it into their work processes

List of Services

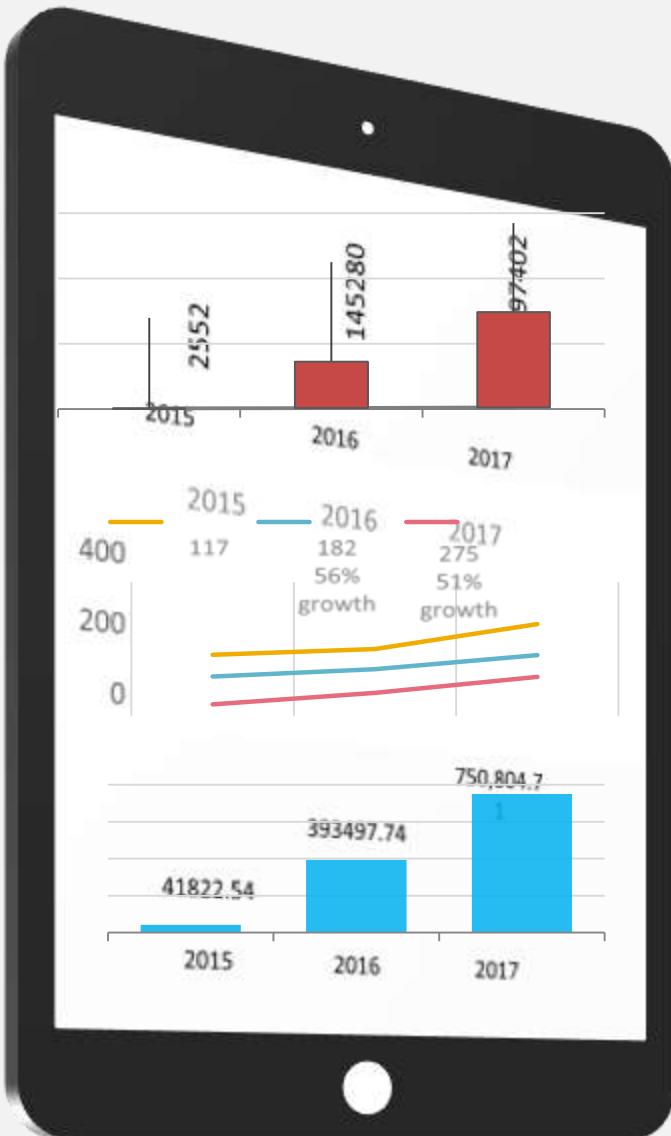

rendered

- Availability of complete tender details in public domain under the tender status link of the portal
- Comprehensive search criteria with various parameters
- Tender information of all Central Government procuring entities in a single platform
- Dashboard with prominent KPIs indicating trends of time , cost, competition, reach
- Utmost secrecy and integrity of the bids submitted using PKI Encryption . Manual system was not so fool proof and subject to Individuals safekeeping methods.
- Wide number of search criteria
- Drill down MIS reports on login
- Event alert mechanisms via emails, SMS and mobile app.
- Vendor Debarment information
- Annual audits as per EPS guidelines
- Continuous Capacity Building mechanisms
- MDP on Procurement at NIFM
- Online, Daily Web learning sessions
- Customised class room training at user premises
- NICS empanelled vendors available for training and roll out
- CPPP caters Call Centre Service 24x7 Helpdesk support and dedicated email support

Secured Hosting & Data Security

- Hosted at NDCSP ,New Delhi which has ISO 27001 Certification
- Log Shipping as per NIC Policy.
- Replication of data & backup facility.
- Web security- SSL technology.
- Bid are Encrypted at Client system and stored in the server.
- Audit trail of each activity.

Authenticity

- Two factor authentication with Digital Signatures.
- Digital Signing of all documents.
- Role based access system.

STQC Audited

- Security audited by Standardization Testing & Quality certification (STQC) for compliance to Quality requirements of eProcurement Systems and various other CERT-IN agencies

Other Features

- Mail/ SMS for various events.
- MIS report for generating reports online.
- Dedicated Team for monitoring and managing Hardware's and Application.

Capacity Building

Training & Monitoring

24 X7 Telephonic Help Desk facility is available (0120-4200462, 0120-4001002, 0120-4001005)

For all bidders as well as department user(s) the Help Desk team support in solving queries like tender basic flow/specific flow (coal flow, oil flow, tender cum auction, QCBS etc.), login issues, DSC related queries and Price-bid issues (BoQ) and online bidding submission/resubmission etc. The telephonic help desk support assist department user(s)/ bidders for routing the right steps and direction for eTendering.

Daily Web Learning facility is available on different topics of e-Procurement at <http://webcon.nic.in>

Daily 2-3 hours of web learning sessions is conducted on different modules on working day(s) (Monday to Friday). Good number of participation is noticeable on regular basis from Users from all Government of India Ministries, Departments, their attached / subordinate offices, Central Public Sector Enterprises (CPSEs), autonomous or statutory bodies. The reach of the this training is far where the basic requirement is only to have Internet Access with at least 512 Kbps. and Speakers or headphones for listening. It is not a recorded session, daily its impart training on e-Procurement on the Central Public Procurement (CPP) Portal. Continuous handholding of web learning modules like Creation of Nodal and User Accounts / Drafting of Tender Document as per eProcurement, Creation of Bill of Quantity (BoQ) with Samples, Creation and Publishing of tender enquiries on CPP Portal, Opening and Evaluation of Technical Bids and Financial Bids and AOC and Bidder Training - Registration , DSC Enrollment and Submission of online bids is facilitated.

On site comprehensive training by NIC experts for Department/Organisation implementing

On Site Training is an important element which helps department / organisation user(s) to develop and understand about the efficiency of eProcurement, as well as make your existing processes faster and more

effective. On request of department/ organisation specific class room training are held which includes hands-on sessions on mock demo with address all the random questions which leads to put their knowledge into action. This training is of two days with complete thorough session. This on-site training session helps department / organisation user(s) to implement future eTendering in a smoother manner.

Dedicated Email Support for any Technical queries related to Operation is available (Email ID support-eproc@gov.in / cphp-nic@nic.in)

Our Email support centre is the cornerstone of our learning and development strategy to resolve all the technical queries related to operation. The support team identifies the priorities for provision of services to our stakeholders and respond with identified/ additional needs. For all those issues which may not completely responded by telephone help desk support can reach to Email support and taken care by mail support facility.

Regular Class Room based training at NIFM, Faridabad as part of Management Development Programme on Public Procurement

To cater to huge requirements of capacity building on eProcurement, Department of Expenditure, Ministry of Finance has included eProcurement as part of Managerial Development Programme on Public Procurement being conducted by National Institute of Financial Management, Faridabad since 2015.

NIFM in co-ordination with NIC master trainers conducts on an average 2 trainings per month on eProcurement.

Participants are being appraised on eProcurement concepts including price bid formats, GoI guidelines and Demo of complete application. Hands on are also been given to participants on price bid preparation as well as Tender Creation and Publishing.

Conclusion

National informatics Centre (NIC), Ministry of Electronics & Information Technology in consultation with Department of Expenditure, Ministry of Finance, Government of India has developed a eProcurement software platform, Government eProcurement System of NIC (GePNIC) to cater to the procurement/tendering requirements of the Government Departments and Organization.

Major benefits noticed so far is an Un-Paralleled transparency ; standardized process easy to adopt, saving in time and cost, effective monitoring, robust platform, state of art security features, systematic upgradation of functionalities and many more. In a nutshell it's Procurement simplified.

Way forward

Built in contract management and National e-Government procurement architecture. Work on unified Item Code Classification and conduct Webinars/ Training videos through social media platforms. Enhanced Capacity Building and will have IoT for gathering real-time feedback from customers. Work on automation for the complete payment cycle.

eProcurement: The Next Step

- eProcurement as support IT Tool to procurement management
- Each public entity invests in technology, processes and control
- Investment in IT integration instead of Process Optimization
- Be reactive in data management instead of pro-active
- Each public entity invests in their own human and functional skills

Annexures

Functions and features of e-procurement system of NIC

Government eProcurement System of NIC(GePNIC)		
Major Functions/Features of GePNIC		
Modules	GePNIC	Remarks
1. Vendor Registration		
Online Portal Enrollment	√	<ul style="list-style-type: none"> Provision to enroll and register in the portal free or payment basis.
2. eTendering Module		
Tender Creation	√	<ul style="list-style-type: none"> Supports all types of tenders pertaining to Works/Goods/Services as per GFR including provision to call for Global as well as QCBS based tenders also. Configurable option of floating tender to receive bids in Single/Two/Three & Four Cover(s)/Bid Packets. Provision for offline/online payment of Tender fee. Provision for offline/online payment of fixed as well as Percentage EMD. Provision for Exemption of EMD payment. Provision to obtain Price Bid using Standard Price Bid Templates. Standard Price Bid Templates supports Multi Currency also.
Tender Publishing	√	<ul style="list-style-type: none"> To be published by Authorized TIA only.
Limited Tender	√	<ul style="list-style-type: none"> Provision to publish tender for some specific bidders defined by the organisation. In this only those bidders specified by the department can participate or can take part in bid submission process
Government eProcurement System of NIC(GePNIC)		
Major Functions/Features of GePNIC		
2. eTendering Module		
Corrigendum Creation	√	<ul style="list-style-type: none"> Supports all categories of Corrigendum/ Amendment wrt Date, Conditions, Price Bid, Change of Bid Openers in addition to RETENDER / CANCELLATION.

Corrigendum Publishing	√	<ul style="list-style-type: none"> To be published by Authorized TIA only.
Online Clarifications	√	<ul style="list-style-type: none"> Supports online one to one or one to many pre-bid clarifications between bidders and Tender Inviting Authority.
Uploading of Pre-Bid Meeting Decisions	√	<ul style="list-style-type: none"> Pre-Bid decisions in respect of clarification received by bidders can be uploaded by Authorized TIA only
Online Bid Submission	√	<ul style="list-style-type: none"> Provision for online documents repository, re-submission /bid editing, withdrawal and Bid Acknowledgement Receipt for bidders. Bids are encrypted at client end with public keys of bid openers and cannot be opened by any means prior to bid opening date and time.
Online Bid Opening	√	<ul style="list-style-type: none"> Facility to configure Minimum 2 department officials as Bid Openers and Maximum 4. Nominated/Designated Bid Opening Committee Members only opens tender at defined time. Tenders can be decrypted and opened after attaining of bid opening date and time.
Viewing of Live Bid Opening Event by Bidders	√	<ul style="list-style-type: none"> Bidders can see the bid opening event live from their end irrespective of place.

Government eProcurement System of NIC(GePNIC)

Major Functions/Features of GePNIC

2. eTendering Module

Support for Technical Evaluation	√	<ul style="list-style-type: none"> Includes General Technical Evaluation based on parameters, Item-wise Evaluation (with/without Technical Parameter Sheet) and QCBS Evaluation.
Support for Financial Evaluation	√	<ul style="list-style-type: none"> Includes Automated Pre-paration of Comparative Statement, Comparative Reports.
Uploading of Technical and Financial Evaluation summary	√	<ul style="list-style-type: none"> Recommendations of TEC in respect of Technical bids and financial bids can be uploaded on to the system.
Uploading of Bid Awards	√	<ul style="list-style-type: none"> Facility to upload Single/ Multiple AOC.

Facility to view online 'Tender status' regarding unopened tenders, bid opening, evaluation and award of contract.	√	<ul style="list-style-type: none"> This increases transparency.
Automatic Publishing of Tenders and related information on Central Public Procurement Portal	√	<ul style="list-style-type: none"> Tender with Meta data will get reflected to Central Public Procurement Portal after publishing on ePublishing module and eProcure module. If any organisation is using their own eProcurement solution or any other third party solution then also Tender with meta data will get reflected to Central Public Procurement Portal through XML facility.

Government eProcurement System of NIC(GePNIC)

Major Functions/Features of GePNIC

2. eTendering Module

Auto Tendering Process with Tender Cum Auction	√	<ul style="list-style-type: none"> Auto Tendering Process will enables automatic evaluation and directly land the TIA in the Financial Evaluation stage by completing the GTE/ITE evaluation, Financial Bid Opening, Financial Bid Decryption, Generating BoQ comparative chart at the rear end. If it is Auto Tendering Process with Tender cum Auction, the system will generate the L1/H1 Price based on the BoQ and activates the auction process
E-Mail Alerts and SMS	√	<ul style="list-style-type: none"> E-mail and SMS alerts sent on every stage to department users as well as to the bidders on registered E-mail ID and Mobile No.
